

A close-up photograph of a gas station nozzle, showing the black handle and the metal nozzle tip. The background is slightly blurred, showing other parts of the gas station structure. The text is overlaid on this image.

*****PVNB CUSTOMERS*****

DUE TO THE LARGE AMOUNT OF GAS STATION FRAUD WITHIN OKLAHOMA, ALL TRANSACTIONS AT GAS STATIONS WILL NEED TO BE PROCESSED INSIDE WITH THE CASHIER. THIS IS FOR YOUR PROTECTION, MOST CARD READERS AT GAS PUMPS ARE NOT EMV (CHIP) COMPATIBLE. BY USING THE EMV (CHIP) FOR ALL OF YOUR PURCHASES YOU ARE USING THE LATEST TECHNOLOGY TO PROTECT YOUR INFO.
